Github || Portfolio ||

Software Engineer with 3.6 years of experience in backend development, transitioning into AI/ML. Skilled in building AI-powered applications using Python, with hands-on experience in LLM integration, multi-agent systems, and computer vision. Passionate about developing intelligent systems that solve real-world problems.

WORK EXPERIENCE

DCG Data-Core Systems India PVT.LTD

Software Developer July 2022- Feb 2026

Developed and maintained backend systems using Laravel applications
Built scalable APIs and improved system performance
Consistently met project deadlines and commitments
Collaborated in Agile teams to deliver high-quality software solutions

PROJECTS

- 1.AI Personal Assistant (Streamlit App) || Link
Python, Streamlit, OpenAI API
Developed an AI assistant for query answering and email summarization
Integrated LLM APIs with interactive UI and real-time response handling
Implemented input validation and secure API key management.
- 2.Multi-Agent AI System || Link
Python, Agno, OpenAI API
Built a multi-agent system using Agno for travel, investment, and content analysis
3. E-Commerce Customer Segmentation
Developed customer segmentation using K-Means and hierarchical clustering
Applied preprocessing, feature engineering, and PCA for improved clustering
Performed cluster profiling to derive actionable business insights
- 4.SnapClass – AI Attendance System (Ongoing)
Streamlit, Computer Vision, Face Recognition
Building an AI-powered attendance system with student and teacher portals
Implementing face recognition to automate attendance from images
Designed QR-based onboarding for student registration and facial data capture

EDUCATION

B.SC[Computer Science(Hons.)] Percentage: 67%
Vidyasagar University
Master of Computer Application (MCA)
June2020-July2022
Haldia Institute of Technology DGPA: 9.25

TECHNICAL SKILLS

Python, PHP, Machine Learning,
Deep Learning, SQL, Streamlit, Flask,
Laravel, LLM Integration ,Agentic AI,
,CNN ,RAG ,GAN

INTERESTS

Data Science,
Finance,
Health Care

CERTIFICATIONS

Github Certification
